5 JUN 1975

MEMORANDUM FOR: Deputy Director for Intelligence
Deputy Director for Operations
Deputy Director for Science and Technology
General Counsel
Inspector General
Comptroller

25X1A SUBJECT : Proposed HN [REDACTED] Security Requirements for Remote
Terminal Access (Job 7562)

FOR YOUR INFORMATION

1. Attached is a proposed notice initiated by the Office of Security to inform employees of the new security requirements for access to remote terminals.

2. We plan to send the proposal to the Deputy Director for Administration on 20 June 1975 for authentication. If you have any comments, we would appreciate receiving them before that date. Questions should be directed to [REDACTED]

SECURITY

HN [REDACTED]

SECURITY REQUIREMENTS FOR REMOTE TERMINAL ACCESS

1. To implement the requirements of Director of Central Intelligence Directive 1/16, "Security of Compartmented Computer Operations," Agency personnel having access to Office of Joint Computer Support (OJCS) computer systems through remote terminals were required to hold security approvals for access to all compartmented data contained in those systems (e.g., Special Intelligence, TK, and [REDACTED]). Because of the proliferation of remote terminals and an increase in the number of personnel using those terminals, compartmentation based on the "need-to-know" principle has been weakened.

25X1A

2. In accordance with the provisions of DCID 1/16, the CIA member of the United States Intelligence Board granted a waiver of the above requirement on 7 April 1975. As a result, access to OJCS systems through remote terminals requires, as a minimum, approval for Special Intelligence (SI) material in addition to an Agency Top Secret clearance. Approval for other compartmented data (e.g., TK and [REDACTED]) is required only to use terminals specifically designated for such data.

25X1A

3. Personnel who previously received compartmented clearances solely to satisfy the requirements of DCID 1/16 should contact their administrative officer to arrange for debriefings on the clearances no longer needed. The administrative officer will make arrangements with the Special Security Center, Office of Security, extension [REDACTED]

25X1A

4. If remote terminal users encounter spillage (data not requested) either through terminal or hard copy output, they should report it to the OJCS Security Officer, extension [REDACTED] or the Chief, Information Systems Security Group, Office of Security, extension [REDACTED]
